1 CHANGES OVER TIME - MARKOV MODELS

It is critical for the successful completion of the second assessment that you have a competent understanding of Markov Models. Launch your IDE, Jupyter Notebook. Navigate to and click on "mdp.ipynb" - You are to review this notebook as it will provide you with a grounding in the practical implementation of using Markov models with python.

1.1 UPCOMING - LEARNING

It is likely for our second project that you will utilise Naive Bayes, as such it may be worth your while reviewing "learning.ipynb" also.
